

Hospital visitor guidance

Due to the risk of coronavirus infection (COVID -19 or its variants) to hospital patients and employees, every visitor is required to:

1. Show the ward nurse a certificate of **complete vaccination against COVID-19** or a **negative PCR test result, which has been carried out in the last 48 hours**
2. Follow the ward nurse's recommendations
3. **Limit the number of visitors to 1 person**
4. Limit the time of the visit to the necessary minimum
5. Refrain from entering a semi-private room to visit a patient if the other patient has a guest already. Only 1 visitor is allowed in a semi-private room at a time.
6. **Wear a mask covering the nose and mouth during the whole time of the visit**
7. Disinfect hands after entering the ward, patient's room and upon leaving the ward
